NARROW ESCAPE.

Quite a Mixup of Vehicles on Sunday Morning.

DANGER OF STREET HITCHING.

What came near being a fatal accident was narrowly averted Sunday morning about 8 o'clock by the timely assistance of several gentlemen.

On Limestone street between Third and Fourth the country members of St. Patrick's Church hitch their horses along the street until after services at the Church.

One of the horses attached to a buggy and hitched to a tree got to kicking, and finally took a run up the pavement, dragging the vehicle after him and upsetting all the rest that were standing there.

On their way to the depot to take the 8:50 train were two colored women, one of extreme old age. They didn't see the horse until it was almost upon them, when it fortunately turned off the pavement into the street.

The oldest one of the two women became so frightened that it was feared she would have spasms, and she had to abandon her trip down the railroad.

The horse was stopped, but not until it had broken all the harness and damaged the vehicle considerably.

Hitching horses on the street is a very dangerous business and should be avoided.

You want the best garden seed; then get Landreth's at Chenoweth's Drug Store.

Wm. Kenny, a blind man, is on trial in New York City for the murder of Conrad Barber.

Dandruff is due to an enfeebled state of the skin. Hall's Hair Renewer quickens the nutritive functions of the skin, healing and preventing the formation of dandruff.

Ohio has banished the gallows. Hereafter convicted murderers will go to Kingdom Come by the electric line. This change in the method of executing the death penalty is commendable. A still better application of electricity would be to somehow turn a strong current into the plodding heels of Justice in the criminal Courts.

The enterprising Washington letter-writers are kindly telling what the President thinks about the Cuban resolutions and what he is going to do about it. When Grover reads their account attentively he will doubtless remark as President Lincoln did on reading a speech prepared for him to recite to a certain foreign delegation: "Well, that sounds original, anyhow."

Milly Owsley a Negress, and probably the oldest woman in Kentucky, died Friday in Danville at the home of Hon. John W. Yerkes, about 105 years of age. As a slave she was the property of Governor William Owsley, and for more than seventy-five years prior to her death had been in the Owsley and Anderson families, having nursed the late Congressman William C. Anderson when he was a baby. Aunt Milly was bright and strong mentally and physically until a very short time ago.

Chief of Police Taylor of Louisville has announced to the members of the police force that they could not lawfully become members of the A. P. A. The law prohibits policemen and firemen from becoming members of any political society—but where the Chief got his information that the A. P. A. is a "political society" is not known. About fifty policemen have already joined, and the Board of Safety will take some action on the matter. The officers will probably be forced to sever their connection with the A. P. A.

Bath county instructed for Bradley for President and for Judge Holt of Frankfort and C. E. Smith, colored, of Madison for Delegates at Large, and for A. M. J. Cochran for District Delegate.

Boyd county did not instruct for President, but sends McKinley Delegates, and instructed for Colonel Frank Coles for District Delegate.

Bracken county instructed for Bradley for President, John P. McCartney of Fleming and A. M. J. Cochran of this city for District Delegates, and for Captain M. C. Hutchins, Judge Holt, John W. Yerkes and W. J. Deboe for Delegates at Large.

Lewis county instructed for McKinley, ex-Congressman Thomas eulogizing him in a speech, although but a few weeks ago he was one of the Louisville committee that heartily indorsed Governor Bradley's candidacy.

Lawrence county instructed for McKinley and for Colonel Coles of Boyd and A. M. J. Cochran of this city for District Delegates.

Fleming did not instruct for President, satisfying herself to instruct for her own son, Hon. John P. McCartney, for District Delegate.

Greenup instructed for Bradley and for Coles and McCartney for District Delegates and M. C. Hutchins and A. M. J. Cochran for Delegates at Large.

Cartier, Harrison, Rowan and Robertson had previously held their Conventions, and Mason and Nicholas, the only remaining counties of this District, will "convenish" today.

BRADLEY'S LATEST FIGURES.

LOUISVILLE, April 11th.—Governor Bradley gives out tonight a table of the Delegates, showing that he has 871 Delegates for the State Convention, which is 21 more than a majority of all.

This does not include the Kenton and Campbell county Delegates or any that have gone to McKinley.

The Governor says that he will also get his share of the uninstructed vote.

This gives Governor Bradley control of the State Convention.

The Aurora Bulletin says: "The way to get rich is to trust nobody, befriend none, get all you can, save all you can, keep all you get, stint yourself and everything that belongs to you, be the friend of no man and have no friend of yours, heap up interest cent upon cent, to be mean, miserable and despised for some twenty or thirty years and riches will come to you as sure as disease, disappointments and death, and when pretty nearly enough wealth has accumulated by a disregard of the charities of the human heart and at the expense of every enjoyment, death will finish the work, the body is buried, the heirs dance and fight over what you have left and the spirit will go—where? By all means get rich. It will pay—the devil."

Editors outside Ohio are commenting on some of the things the women of Cincinnati propose to do in retaliation for the anti high theater-hat law. Why, bless your souls, Mr. Editors, the women of Cincinnati are not paying any attention to the law, and go on wearing the only hats they have, just as they did before the law was passed.

The new Hotel Cecil in London covers four acres overlooking Victoria Gardens. It contains separate houses for Indian and Persian princes, and an ice factory to supply visiting Americans. Beneath the courtyard of the hotel is accommodation for 500 horses and carriages. The land cost \$2,000,000, which was paid to 370 proprietors. It was bought by Jabez Balfour, the great financier, who failed for \$45,000,000. He had left 12,000 subscribers and stockholders penniless. There are 1,300 rooms in the house and seven banquet halls, the largest seating 1,000. Every room contains a telephone.
